SUMMARY

Frontend Developer with 3+ years building production React/Next.js applications in fintech and consumer security (PureSquare). Experienced across the full frontend stack — TypeScript, state management (Redux, Zustand), and component-driven UI (shadcn, MUI) — with a track record of shipping checkout flows and feature addons used by live customers.

SKILLS

Languages & Frameworks: JavaScript, TypeScript, React.js, Next.js, React Native, Node.js

CMS: WordPress, Shopify

State Management: Redux, Zustand

UI / Styling: Tailwind CSS, Bootstrap, shadcn/ui, MUI, WordPress

Backend & Data: Node.js, Express.js, PHP, MySQL, MongoDB, Firebase, REST APIs

Tooling: Git (branching, PR workflow), CRON automation

Practices: Accessibility (ARIA), UI/UX Design, Frontend Performance Optimization, UI Animation

EXPERIENCE

Frontend Developer | PureSquare (Disrupt, Formerly Gaditek)

2023 – Present

- Built and shipped a custom cart checkout flow in React, integrating Redux and Zustand for state management across a multi-step purchase process, reducing checkout abandonment and syncing with Node.js backend services.
- Migrated key components to TypeScript, reducing production runtime errors in checkout and addon flows.
- Developed the eSIM checkout experience for PureVPN Addon, extending the existing cart architecture to support a new product line.
- Built the frontend for two production addons — Dark Web Monitoring and Residential Network — from design handoff through deployment, as part of a team of 4.
- Implemented accessible UI patterns (ARIA attributes, keyboard navigation) across new components, using shadcn/ui and MUI as the component foundation.
- Integrated REST APIs and reduced page load times by 15% through frontend performance optimization.
- Automated recurring operational tasks with CRON jobs, cutting manual intervention time.

EDUCATION

Iqra University — BS in Computer Science

Feb 2024 – Present

ACHIEVEMENTS

- Top 15 Finalist, Saylani Web Dev Hackathon (Jan 2022) — developed a feature-rich React-based project in 48 hours, ranking in the top 15 of 250 participants.
- Appreciation Letter, Bundle Cart Campaign — recognized for outstanding contributions in live marketing campaigns, improving customer engagement and experience.
- Employee Recognition, PureSquare — recognized for consistently delivering high-quality frontend solutions and contributing to the development and maintenance of production web experiences across multiple international markets.

PROJECTS

- E-commerce Store — Full-stack React & Node.js store with Firebase authentication and Stripe payment integration.
- Hotel Booking System — Full-stack booking platform (React.js, Node.js, MongoDB) with real-time room availability and booking confirmation.
- Expense Tracker App — React Native finance app with Firebase, enabling personal budget management and real-time analytics.
- Portfolio Website — Personal portfolio built with Next.js and Tailwind CSS, showcasing projects and skills.
